...

In law, a binding precedent (also known as a mandatory precedent or binding authority) is a precedent which must be followed by all lower courts under common law legal systems. In English law it is usually created by the decision of a higher court, such as the Supreme Court of the United Kingdom , which took over the judicial functions of the House of Lords in 2009.

What Precedents Were Set by George Washington? | Reference.com

Martial law in the United States refers to several periods in United States history where in a region or the United States as a whole were placed under the control of a military body. On a federal level, only the president has the power to impose martial law. In each state, the governor has the right to impose martial law within the borders of the state.

Martial law in the United States - Wikipedia

The United States has parallel court systems, one at the federal level, and another at the state level. Both systems are divided into trial courts and appellate courts. Generally, trial courts determine the relevant facts of a dispute and apply law to these facts, while appellate courts review trial court decisions to ensure the law was applied ...
